Professional Experience

InSight Marketing Communication | Front End Developer | Internship **09/2018 – 11/2018**

- Responsible for building and maintaining websites for clients through various online platforms
- Performed Collaboration the project with Senior Developers to update website and create new features and make sure the new features 100% worked.
- Success in building a school information system website and qualifying for the 2018 StartUp Fest event

Volunteer Experience

Prima Indonesia University | SNITIK 2023 **12/2023**

- Responsible as Speaker to deliver presentation "Pembuatan Game Interaktif dengan Scratch"
- Successfully delivered Offline on stage with more than 50+ participants during program

Project

Laundry App | Full Stack Developer **02/2024**

"Laundry App" is an Android-based application project I completed as part of a university course assignment. Utilizing Flutter, I gained hands-on experience in app development, including coding, user interface design, and testing. This project provided me with a solid foundation in mobile software development.

E-Presensi | Full Stack Developer **10/2023**

"E-Presensi" is a responsive web application project I developed. This application facilitates employee attendance using facial recognition and geolocation. Through this project, I honed my skills in creating responsive websites accessible across various devices, including smartphones. This experience expanded my understanding of responsive design and the implementation of technologies such as facial recognition and geolocation in web development.

SIAM | Full Stack Developer

08/2023

“SIAM (Sistem Informasi Akademik Mahasiswa)” is a mobile application designed to serve as an academic information systems for students. Through this project, I gained valuable experience in mobile app development. The project allowed me to deepen my understanding of mobile app development principles and methodologies, contributing to my growth as a developer.
